

XMPRESA SOLUTIONS LTD

CONTRACT OPPORTUNITY — GAME DEVELOPMENT TEAM

Project: Green Kenya — Future Builders (Mobile & Web-Based Sustainability Game)

Location: Remote / Nairobi, Kenya

Contract Type: Project-Based Contract

Duration: Initial 6 Months (Renewable Based on Performance and Project Requirements)

About Xmpresa Solutions LTD

Xmpresa Solutions LTD is a technology company focused on developing innovative software solutions, digital transformation services, automation systems, and emerging technology platforms across Africa.

We are currently seeking talented and passionate professionals to join the development team for our upcoming flagship project, **Green Kenya — Future Builders**, an interactive 3D city-building and sustainability game aimed at educating, inspiring, and empowering players to transform communities through renewable energy, environmental conservation, smart infrastructure, and sustainable development.

AVAILABLE POSITIONS

1. Unity Game Developer (2 Positions)

Responsibilities

- Develop gameplay mechanics and game systems.
- Build mobile-friendly game features.
- Implement user interactions and game progression.
- Integrate backend APIs and AI features.
- Optimize game performance for Android and iOS devices.
- Participate in testing and debugging.

Requirements

- Experience with Unity Engine.
- Strong knowledge of C# programming.
- Experience developing mobile games.

- Knowledge of Git version control.
- Ability to work independently and meet deadlines.

Preferred

- Published game projects.
 - Experience with multiplayer systems.
 - Experience integrating AI APIs.
-

2. 3D Environment Artist (1 Position)

Responsibilities

- Design realistic Kenyan villages, towns, and city environments.
- Create buildings, roads, energy infrastructure, and environmental assets.
- Optimize 3D assets for mobile performance.
- Collaborate closely with game designers and developers.

Requirements

- Proficiency in Blender or equivalent 3D software.
 - Strong portfolio showcasing environment design.
 - Experience creating game-ready assets.
-

3. UI/UX Game Designer (1 Position)

Responsibilities

- Design intuitive user interfaces.
- Create player-friendly navigation systems.
- Develop mobile-first user experiences.
- Produce wireframes and visual mockups.

Requirements

- Experience using Figma, Adobe XD, or similar tools.

- Understanding of mobile game user experience.
 - Portfolio of previous design projects.
-

4. AI Engineer (1 Position)

Responsibilities

- Develop the AI Advisor feature.
- Integrate Large Language Models (LLMs).
- Design AI-driven recommendation systems.
- Support idea generation and simulation features.

Requirements

- Experience with OpenAI, Gemini, Claude, or similar AI platforms.
 - Knowledge of Python.
 - Experience with API integrations.
 - Understanding of prompt engineering.
-

5. Game Designer / Simulation Specialist (1 Position)

Responsibilities

- Design gameplay loops and progression systems.
- Balance economic and sustainability mechanics.
- Create missions, achievements, and rewards.
- Ensure educational and entertainment value.

Requirements

- Experience designing simulation or strategy games.
 - Understanding of player engagement systems.
 - Strong documentation and planning skills.
-

GENERAL REQUIREMENTS

All applicants should:

- Be self-motivated and capable of working remotely.
 - Demonstrate strong communication skills.
 - Be willing to sign a Non-Disclosure Agreement (NDA).
 - Be available for weekly project meetings.
 - Deliver work according to agreed milestones and timelines.
-

CONTRACT TERMS

- This is a project-based contractual engagement.
 - Compensation shall be negotiated based on experience and scope of work.
 - Payments shall be tied to project milestones and deliverables.
 - Intellectual Property (IP) rights for all work produced under this project shall remain the exclusive property of Xmpresa Solutions LTD.
 - Successful contractors may be offered future engagements on subsequent projects.
-

APPLICATION REQUIREMENTS

Interested candidates should submit:

1. Updated CV/Resume.
2. Portfolio or GitHub profile (where applicable).
3. Cover Letter explaining relevant experience.
4. Expected contract rate or monthly compensation.
5. Availability to begin work.

Applications should be sent to:
